

Twinscrew Co-rotating SCX Extruder Specification

Extruders	Screw Ø (mm)	RPM	kW	LHZ	LCZ	Do /Di	Kg/hr*
SCX65 25	65	600-900	tba	7	7	1.8	1000
SCX55 25	55	600-900	tba	7	7	1.8	500
SCX45 25	45	600-900	tba	7	7	1.8	250
SCX22 25	22	900	4.5	7	7	1.8	LAB

Key:	RPM Speed	kW Motor Power	LHZ Liner Heating Zones	LCZ Liner Cooling Zones	Do/Di Mega volume screw elements
------	-----------	----------------	-------------------------	-------------------------	----------------------------------

Volume	Large Batch	Typical Batch	Mid Batch	Small Batch	Laboratory
--------	-------------	---------------	-----------	-------------	------------

* Disclaimer: The volume throughputs declared have been tested to be achievable, but are subject to use, material type, desired finish, and operator experience.
